

MATRIX IS GROWING. ARE YOU IN?

Matrix designs, manufactures and sells innovative technological products that help keep people safe.

Originally focused on the underground coal mining industry, Matrix is expanding into new markets in the United States and globally.

Headquartered in Newburgh, Indiana, Matrix is a wholly owned subsidiary of Alliance Resource Partners, L.P. This relationship gives Matrix the financial stability required for our projected growth.

WHERE IS MATRIX HEADED?

Matrix is diversifying its product line. While mining will continue to be a core business, Matrix is developing new products which will apply to a variety of industrial markets. Our safety product profile includes:

- Proximity Detection Systems
- Lighting Technology
- Cameras & Monitors
- Mining Networks
- Tracking and Communications Systems
- Mine Operation Software
- Control & Automation Systems
- Atmospheric Monitoring Systems
- Gas Detection Devices

THE MATRIX MISSION

Matrix's mission is to provide innovative systems and services that improve safety and maximize productivity. Matrix cultivates a fun, positive work environment that fosters individual career growth.

Dental Insurance
Prescriptions
Retirement (401k)
Gym Memberships

MATRIX IS GROWING. ARE YOU IN?

SOFTWARE ENGINEERS

Do you get your kicks by researching and inventing new computer vision and deep learning algorithms? Does the mere thought of developing and optimizing data parallel implementations spin your prop? What about creating technical demos and prototypes?

If so, Matrix is looking for talented software engineers like you who enjoy working with product development, in-house architecture and software teams to create the next generation of real-world safety technology.

DO GREAT WORK AND LOVE WHAT YOU DO!

Matrix is passionate about our products, people and families. We are expanding in the United States and have a growing business base in South Africa. Future growth target markets include Australia, South America and the European Union.

ELECTRONIC HARDWARE (EH) ENGINEERS

Matrix EH engineers develop electrical and electronic components that support our Machine Vision products.

Do you enjoy developing new technology and supporting product launches? Our EH team is the tip-of-the-spear for supplier technical interface, component design activities, engineering services and purchased components.
